NOTES TO FINANCIAL STATEMENTS
HOPE FOR HAITI, INC.
June 30, 2011

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization:
Hope For Haiti, Inc. (the Organization) is a not-for-profit corporation organized to improve the quality of life for the Haitian people, particularly children, through education, nutrition and healthcare.

Financial Statement Presentation:
FASB ASC 958 Not-for-Profit Entities requires the Organization to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted, and permanently restricted. Accordingly, net assets of the Organization and changes therein are classified and reported as follows based on donor-imposed restrictions:

Unrestricted: Net assets not subject to donor-imposed restriction. Such assets are available for any purpose consistent with the Organization’s mission.

Temporarily restricted: Net assets subject to specific donor-imposed restriction that must be met by actions of the Organization and/or passage of time. Such assets normally fund specific expenditures of an operating or capital nature.

Permanently restricted: Net assets subject to donor-imposed restriction requiring they be maintained permanently by the Organization. Such assets are normally restricted to long-term investment with income earned and appreciation available for specific or general Organization purposes. The Organization held no permanently restricted net assets at June 30, 2011.

Cash and Cash Equivalents:
The Organization considers all highly liquid investments purchased with an original maturity date of three months or less to be cash equivalents.

Contributed Goods and Services:
In-kind donations, which consist primarily of medical supplies and related materials, are reflected in the accompanying financial statements at their estimated fair market values of $9,208,891 for the year ended June 30, 2011.

Many individuals and businesses have donated significant amounts of time and services to the Organization’s fund-raising campaigns, policy making committees, and program operations. However, such contributed services do not meet the criteria for recognition of contributed services contained in accounting principles generally accepted in the United States of America and, accordingly, are not reflected in the accompanying financial statements. While the financial statements do not reflect values for donated services, management estimates volunteers gave over 5,100 hours of policy, program, administrative and facility support services in the year ended June 30, 2011.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contributions and Unconditional Promises to Give:
Contributions are recognized when the donor makes a promise to give to the Organizations that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Property and Equipment:
The Organization records property and equipment at cost when purchased or at fair market value when donated. Donated assets are reported as unrestricted contributions unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Property and equipment are depreciated using the straight-line method over estimated useful lives ranging from five to thirty-nine years and depreciation is recorded as an expense in current operations. Expenditures for additions, repairs, maintenance, renewals, and betterments that materially prolong the useful lives of the assets are capitalized.

Income Taxes:
The Organization is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code and from state income taxes under Chapter 220.13 of the Florida Statutes.

The Organization assesses uncertain tax positions in accordance with FASB ASC 740 and has determined that all income tax filing positions would be sustained upon examination and, accordingly, has not recorded any reserves or related accruals for interest and penalties at June 30, 2011 for uncertain income tax positions.

The Organization files tax returns in the U.S. federal and state of Florida jurisdictions. The Organization is no longer subject to U.S. federal or state and local income tax examinations by tax authorities for years before 2007.

Advertising:
The Organization expenses the costs of advertising as incurred. Advertising and public relations expense for the year ended June 30, 2011 totaled $46,399.
NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Functional Expenses:
The costs of providing program and support services have been summarized on a functional basis in the statement of activities. Salaries and related expenses are allocated based on job descriptions and the best estimates of management. Expenses, other than salaries and related expenses, which are not directly identifiable by program or support services, are allocated on the best estimate of management.

Use of Estimates:
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments:
Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Investments are initially recorded at cost if purchased or, if donated at fair market value on the date received. Realized and unrealized gains and losses are recognized as changes in unrestricted net assets unless restricted by donor, in which case the amounts are reflected as temporarily restricted until expended according to the donors’ stipulations.

Fair Value Measurements:
The Organization measures its assets and liabilities in accordance with FASB ASC 820 Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements.

NOTE B - INVESTMENTS

The following are the major categories of assets measured at fair value on a recurring basis during the year ended June 30, 2011, using quoted prices in an active market for identical assets (Level 1). Investments as of June 30, 2011 are summarized as follows:
